## GROUND UP

This is our bread and butter, our main event. The good stuff. By building a site from scratch as a well-connected and well-versed team we eliminate all the annoying and time consuming back-and-forth between separate teams. We do these as fixed bids (33% due up front, 67% due at delivery) or pay as you go (monthly payments based on hours worked), but since every project is different, we assess these on a case by case basis.

Unless you're coming to us with a fully finalized design we go through the following steps to give you a beautiful new site.

### Flowcharts & Wireframes

This is where loose ideas begin to take shape. We'll help you really flesh out your ideas and get them organized into categories and pages with a focus on clean and simple user experience.

### Design

We work closely with Mathieu of TBIB Creative to turn your ideas into a digital work of art. If this is a new venture that needs branding or other print deliverables, this would be the time and place to tie it all together.

### Development

Now things come to life. Our team turns the designs into an interactive interface and customize (or custom build) the CMS to suit your every need. Pick a date and BAM! It's alive!

## MONTHLY MAINTENANCE

We have a good spread of packages to help you save money and help us plan our time appropriately. Hours even rollover month to month\*, so don't worry about trying to space out your workload to stay under your limit.

Description	Discount	Rate
Base Hourly Rate	0%	\$125/hour
Package A (1-9 hours per month)**	~10%	\$110/hour
Package B (10-24 hours per month)**	~15%	\$105/hour
Package C (25-49 hours per month)**	~20%	\$100/hour
Package D (50+ hours per month)**	~25%	\$95/hour

\* Rollover hours expire in 18 months.

\*\* Packages are set with a fixed number of hours per month. If no rollover hours are available exceeding the monthly limit will result in billing at the base rate (Example: 15 hours/month at \$105/hour, 16<sup>th</sup> hour at \$125/hour)

## HOSTING

To make things even easier we operate our own cloud. Our system is fully load balanced with multiple webservers as well as multiple database servers. This offers us full redundancy in order to maintain the highest standards in website uptime. It also lets us keep our servers fully upgraded without having to take your site down in order to do so.

We know that your website is important to you, and take its availability and scalability very seriously. No more waiting on hold to get developers access to another hosting service, and no unexpected updates to wreak havoc on your site. Everything in house, everything in sync.

Description	Personal	Business	Enterprise
Cost	\$20/month	\$100/month	\$400/month
Storage	1 GB	20 GB	100 GB
SSL	No	Yes	Yes
Dedicated Static IP	No	Yes	Yes
FTP Access	Yes	Yes	Yes
SFTP Access	Yes	Yes	Yes
SSH Access	No	Yes	Yes
Dev Site	No	Yes	Multiple
Support	Best Effort	Priority	Priority
Bandwidth	5 GB/month	50 GB/month	400 GB/month
DNS Registration / Management	no	Up to 5	Up to 10
Archival Backups*	Yes	Yes	Yes
Setup / Transfer	\$100	Free	Free

\* Incremental backups stored for around 1 month.

Extras	Costs
Extra IP Address	+\$10/month
Storage Overage	+\$0.10/GB
Unplanned Bandwidth Overage	+\$0.60/GB
Planned Bandwidth Overage	+\$0.30/GB
Additional Domain Registration	+\$2/month
Additional Simple Website (Wordpress or static website with low traffic)	+\$10/month
